

## **MEDIA ARRANGEMENT**

### **OUR OCEAN CONFERENCE 2018**

Bali, Indonesia, 29 – 30 October 2018

---

#### **I. Introduction**

The main objective of Our Ocean Conference is to increase as well as enhance the collaboration and partnership between various ocean stakeholders, which is translated into concrete and actionable commitments. Participants are encouraged to announce their commitments during the conference, as it critically contributes towards global efforts to preserve the oceans' health. Discussions during the Conference will highlight integrated and actionable solutions, which remove barriers between sectors, disciplines, and financing streams to comprehensively address the ocean as an inter-connected system and economy.

Our Ocean Conference 2018 will continue to focus on marine protected areas, sustainable fisheries, marine pollution, and climate change-related impacts to the oceans. This year's Our Ocean Conference will also maintain the crosscutting themes of sustainable blue economy and maritime security, as introduced by the European Union in 2017.

Our Ocean Conference 2018 looks to drive political will in taking actions to preserve the oceans' health. Our Ocean Conference 2018 will also continue to engage young innovators as an important element of the Conference, and to energize discussions, challenge assumptions as well as to ensure their continued development as future leaders and champions of the ocean.

Our Ocean Conference 2018 will continue the strong tradition of tracking past commitments and encouraging new commitments and partnerships that deliver multiple objectives. It will also introduce the Our Ocean Commitment Registry, to facilitate tracking and review of past and new commitments. While maintaining its global reach, Our Ocean 2018 is the first conference to be held in Asia, and as such will highlight the importance of action in the region.
